

IMPORTANT NOTE: The following list of clinics, hospitals, doctors, and dentists are listed for your convenience. The list is not exhaustive and should not be taken as a recommendation for a particular medical service nor does the H.S.A. Council assume responsibility for the professional ability or integrity of the medical facilities or practitioners listed below. The Council does not assume responsibility for the satisfaction (or lack thereof) received from the medical practitioners on this list. Please conduct your own research into the efficacy of any provider you select.

Remember, Mexico is a cash society although there are many businesses, clinics, and hospitals that do take credit cards. Check with the service provider about which cards they accept.

LOCAL DOCTORS, CLINICS, AND HOSPITALS IN THE LAKESIDE AREA

Despite old rumours, Mexico has excellent health care. The many Ex-pats and visitors living in the Lake Chapala area and Guadalajara have found world-class medical care at extremely reasonable costs. You will discover that many medical practitioners have studied at some of the best medical schools in North America and Europe. In fact, Guadalajara boasts the second-best teaching hospital in Mexico. Too ill to go the doctor, guess what? In Mexico many doctors make house calls, and many doctors and dentists will provide emergency services outside of regular hours!

The following are listed within the community, yet there are many more who regularly travel from Guadalajara. FYI, Mexicans carry both parents' last names but go by the father's, for example, Dr. Hector Briseno Garcia – Briseno is the last name; Garcia is his mother's last name. He is known as Dr. Briseno.
